

## CURRENT GREEN STRATEGIES

- Current and participating members of the Green Chamber: Greater Phoenix, Clean the World Campaign and the Arizona Hotel & Lodging Association Certified Green Hotel Program
- Guest room linen conservation program in place. Purchased new high volume washers with Ozone capabilities, conserving water/energy. New energy efficient Ironer installed in Laundry. "Green" dilution system and Housekeeping products in use. Gently used linens donated to Humane Society and to Central AZ Shelter Services.
- EMS system used for meeting rooms, casitas, public/office areas of property. New energy efficient multi zone units for public spaces/meeting areas installed. All guest room commodes are 1.6 gallon water saver toilets. All guest room glass doors/windows new and energy efficient.
- Recycling of motor oil, vegetable oil and kitchen grease is in progress. Eliminated Styrofoam use throughout property.
- Correspondence is transmitted via email as opposed to copying and mailing. Copier paper used is a 30% recycled product. Replaced CRT monitors with LCD monitors and all PC's and printers with Energy Star compliant products. Recycle program in place for all ink cartridges for printers and copy machines.
- Conference Services Department recycles all cans/paper from meetings. Back-of-the-house paper/cans/plastic/cardboard recycling programs in place with recycle kiosks available on meeting room loggias and at pool areas for guest use.
- New energy efficient televisions/mini bars installed in all 326 guest rooms.
- Installed .5gpm aerators and signage @ public restrooms to conserve water
- Installed CFL bulbs and lower wattage fluorescents in all practical applications. Began Fluorescent bulb recycling program.
- All future Transportation vehicle purchases will be flex fuel or hybrid vehicles.
